Project title	Domain	Tools used	Project workflow
CampusGen – College Admission Enquiry Bot	Education	Python, VS Code, Streamlit, Gemini API	Student asks a question → check predefined FAQs → generate a response → display admission information.
StudentVoice AI – Student Feedback Bot	Education	Python, Streamlit, Gemini API, Pydantic	Collect feedback → analyze sentiment → identify common issues → suggest improvements.
StudyMate AI – Personalized Study Assistant	Education	Python, Streamlit, Gemini API	Enter topic → generate explanations → provide examples and practice questions.
SyllabusPilot – Study Planner	Education	Python, Streamlit, Gemini API	Enter syllabus and exam date → create a study timetable → generate a revision checklist.
QuizForge AI – MCQ Generator	Education	Python, Streamlit, Gemini API, Pydantic	Enter topic and difficulty → generate MCQs → validate answers → conduct quiz and calculate score.
AssignmentLens – Assignment Feedback Assistant	Education	Python, Streamlit, Gemini API	Enter answer and marking rubric → evaluate against criteria → provide feedback and improvement suggestions.
CampusConnect – College Event Bot	Education / Events	Python, Streamlit, Gemini API	Ask event questions → retrieve event information → display schedule, venue and registration details.
LostLink AI – Lost-and-Found Matcher	Campus Operations	Python, Streamlit, pandas	Enter lost or found item details → compare descriptions → identify possible matches.
LibraryBuddy – Library Helpdesk Bot	Education	Python, Streamlit, Gemini API	Ask library questions → retrieve borrowing rules → provide instructions and contact information.
SkillCompass – Student Skill Gap Analyzer	Education / Careers	Python, Streamlit, Gemini API, Pydantic	Enter career goal and skills → identify skill gaps → generate a learning roadmap.
ResumeRoute AI – Resume Analyzer	HR / Careers	Python, Streamlit, Gemini API, PDF extraction	Upload resume → extract skills → analyze experience → suggest relevant job roles.

InterviewAce – Mock Interview Bot	Careers	Python, Streamlit, Gemini API	Select job role → generate interview questions → collect answers → provide feedback.
CareerWrite AI – Cover Letter Generator	Careers	Python, Streamlit, Gemini API	Enter resume details and job description → generate a tailored cover letter → edit and export.
JD-Skill Extractor – Job Description Analyzer	HR / Careers	Python, Streamlit, Gemini API, Pydantic	Enter job description → extract skills and responsibilities → compare with candidate skills.
PeoplePolicy AI – HR Policy Assistant	Human Resources	Python, Streamlit, Gemini API, PDF extraction	Load HR policies → ask questions → retrieve relevant content → answer with source excerpts.
SupportSphere – Customer Support Bot	Customer Service	Python, Streamlit, Gemini API	Enter customer query → classify issue → retrieve FAQ → generate response or escalation suggestion.
ComplaintCompass – Complaint Classifier	Customer Service	Python, Streamlit, Gemini API, Pydantic	Enter complaint → classify category and urgency → summarize issue → recommend routing for review.
ReviewRadar – Customer Review Analyzer	Business Analytics	Python, Streamlit, pandas, Gemini API	Upload review CSV → analyze sentiment → identify common themes → display summary and charts.
ProductPitch AI – Product Description Generator	E-commerce	Python, Streamlit, Gemini API	Enter product details → select audience and tone → generate marketing descriptions.
CompareCart – Product Comparison Assistant	E-commerce	Python, Streamlit, pandas, Gemini API	Upload product data → filter by price and features → compare options → summarize trade-offs.
PizzaPilot – Pizza Ordering Bot	Food / Delivery	Python, Streamlit, Gemini API, Python functions	Select pizza and extras → calculate price → validate delivery details → display order summary.
MenuMate – Restaurant Menu Assistant	Food / Hospitality	Python, Streamlit, Gemini API, CSV	Load menu → ask about dishes → filter by preferences → display matching items.

SpendSense AI – Expense Categorizer	Personal Finance	Python, Streamlit, pandas, Gemini API	Enter expenses → classify categories → validate records → summarize spending.
InvoiceIQ – Invoice Data Extractor	Business Automation	Python, Streamlit, Gemini API, Pydantic	Upload invoice → extract fields → validate invoice number, date and totals → flag uncertain values.
MinuteMind – Meeting Notes Assistant	Productivity	Python, Streamlit, Gemini API, Pydantic	Enter meeting notes → summarize discussion → extract decisions and action items → export minutes.
ToneTune AI – Email Rewriter	Productivity	Python, Streamlit, Gemini API	Enter email draft → select tone → rewrite content → compare and edit the result.
DocuBrief – Document Summarizer	Document AI	Python, Streamlit, Gemini API, PDF/DOCX extraction	Upload document → extract text → summarize key points → display executive summary.
AskMyPDF – PDF Question-Answering Bot	Document AI	Python, Streamlit, Gemini API, PDF extraction	Upload PDF → extract content → ask questions → answer using document context → show supporting excerpts.
PolicyPath – Procedure Finder	Business Operations	Python, Streamlit, Gemini API	Load procedure documents → find relevant sections → summarize steps → provide source references.
VisionVoice – Image Description Assistant	Accessibility / AI	Python, Streamlit, Gemini multimodal API	Upload image → analyze image → generate description → display accessible text.
ScreenSense – Screenshot Explainer	Accessibility / Productivity	Python, Streamlit, Gemini multimodal API	Upload screenshot → extract visible information → explain interface elements → organize results.
TripCraft AI – Travel Planner	Travel / Tourism	Python, Streamlit, Gemini API	Enter destination, budget and dates → generate itinerary → organize daily activities and estimated costs.
PantryChef – Recipe Assistant	Food	Python, Streamlit, Gemini API	Enter available ingredients → generate recipes → provide cooking steps and substitutions.
LinguaLoop – Language Practice Bot	Language Learning	Python, Streamlit, Gemini API	Select language and level → converse with AI → correct

			sentences → explain vocabulary.
CodeClarity – Code Explanation Assistant	Software Development	Python, Streamlit, Gemini API	Enter code → explain logic → identify potential errors → suggest corrections and tests.
PyPractice AI – Coding Question Generator	Software Education	Python, Streamlit, Gemini API, Pydantic	Select programming topic → generate coding tasks → provide hints → validate test cases.
TracebackTutor – Error Explanation Assistant	Developer Tools	Python, Streamlit, Gemini API	Paste error message → explain likely cause → provide debugging steps → test the fix.
DataDictionary AI – CSV Explainer	Data Management	Python, Streamlit, pandas, Gemini API	Upload CSV → inspect columns → generate column descriptions → export data dictionary.
AskYourCSV – Natural Language Data Explorer	Business Analytics	Python, Streamlit, pandas, Gemini API	Upload CSV → ask questions in plain English → run approved data operations → display results and charts.
SurveyStory AI – Survey Analyzer	Research / Education	Python, Streamlit, pandas, Gemini API	Upload survey responses → group themes → summarize feedback → display representative examples.
PaperPilot – Research Paper Assistant	Research	Python, Streamlit, PDF extraction, Gemini API	Upload research paper → summarize objectives and findings → identify limitations → generate discussion questions.
CiteCraft – Citation Formatter	Research / Education	Python, Streamlit	Enter reference details → validate fields → format citation → verify source information.
CivicGuide – Public Service Information Bot	Civic Services	Python, Streamlit, Gemini API, FAQ dataset	Ask about public services → retrieve approved information → list requirements and application steps.
BhashaBridge – Local Language Assistant	Civic / Language	Python, Streamlit, Gemini API	Enter question in a supported language → generate response → translate or simplify information.
GreenSteps AI – Sustainability Assistant	Environment	Python, Streamlit, Gemini API	Describe a household or campus scenario → suggest

			energy and waste-saving actions → create checklist.
PlantCare Companion – Plant Information Bot	Agriculture / Gardening	Python, Streamlit, Gemini API	Enter plant details and symptoms → provide general care suggestions → recommend expert help when uncertain.
SafeShift – Manufacturing Safety Assistant	Manufacturing / Safety	Python, Streamlit, approved safety documents, Gemini API	Ask safety question → retrieve approved procedure → show source section → direct emergencies to official procedures.
MaintenanceMinder – Maintenance Log Analyzer	Manufacturing	Python, Streamlit, pandas, Gemini API	Upload maintenance logs → summarize recurring faults → identify patterns → request technician review.
ClinicConnect – Clinic Information Bot	Healthcare Administration	Python, Streamlit, Gemini API, FAQ data	Ask about clinic timings and appointments → retrieve administrative information → display contact details.
LabelLens – Medicine Label Extractor	Healthcare Support	Python, Streamlit, Gemini multimodal API, Pydantic	Upload label image → extract visible text → validate fields → flag uncertain information for professional confirmation.
SupportPath – Student Resource Directory	Student Wellbeing	Python, Streamlit, curated resource data	Select support topic → display approved resources → provide contact information and configured emergency guidance.
PlainSpeak AI – Text Simplifier	Accessibility	Python, Streamlit, Gemini API	Enter complex text → select plain-language format → rewrite content → compare original and simplified versions.
FlashcardFlow – Flashcard Generator	Education	Python, Streamlit, Gemini API, Pydantic	Enter notes → generate question-answer cards → validate output → conduct revision practice.
ConceptMap AI – Concept Map Generator	Education	Python, Streamlit, Gemini API	Enter topic → identify central concept and branches → generate a structured concept map outline.
SlideSmith – Presentation Outline Builder	Productivity / Education	Python, Streamlit, Gemini API	Enter topic and audience → generate slide titles → create talking points and speaker notes.

SocialSpark – Social Media Content Planner	Digital Marketing	Python, Streamlit, Gemini API	Enter campaign objective → generate post ideas → create content calendar → edit before publishing.
BizBuddy – Small Business Assistant	Small Business	Python, Streamlit, Gemini API, CSV/JSON	Load business FAQs and products → answer customer questions → retrieve product information → escalate uncertain cases.
EventEase – Event Information Bot	Events	Python, Streamlit, Pydantic	Answer event FAQs → collect registration details → validate fields → display registration summary.
GoalGrid AI – Goal Planning Assistant	Productivity	Python, Streamlit, Gemini API, Pydantic	Enter goal and deadline → generate milestones → create weekly tasks → export checklist.
PromptArena – Prompt Testing Playground	AI Development	Python, Streamlit, Gemini API	Enter alternative prompts → test identical inputs → compare responses → evaluate against a rubric.
TrustCheck AI – LLM Output Quality Checker	Responsible AI	Python, Streamlit, Gemini API, Pydantic	Enter expected facts and model output → evaluate against criteria → identify limitations → flag for review.
Structura AI – Structured Data Extractor	Business Automation	Python, Streamlit, Gemini API, Pydantic	Enter text → extract names, dates and categories → validate schema → display structured JSON.
ConvertMate – Unit Conversion Bot	Utilities / Education	Python, Streamlit, Gemini API, Python functions	Enter conversion request → select approved conversion function → calculate result → display value and units.
CampusTicket AI – Student Helpdesk Router	Campus Operations	Python, Streamlit, Gemini API, Pydantic	Submit issue → classify category → suggest priority → prepare ticket summary for staff.
OnboardWise – Employee Onboarding Assistant	HR / Operations	Python, Streamlit, Gemini API, documents	Ask onboarding questions → find relevant section → summarize instructions → provide source reference.
FeedbackFlow – Feedback Analyzer	Education / Business	Python, Streamlit, pandas, Gemini API	Upload feedback CSV → clean records → classify themes → generate summary report.

StudyPack AI – Notes-to-Quiz Generator	Education	Python, Streamlit, Gemini API, Pydantic	Upload notes → generate flashcards and MCQs → validate answers → run practice quiz.
FAQFoundry – Document FAQ Generator	Document Automation	Python, Streamlit, Gemini API	Upload document → identify key topics → draft questions and answers → verify against source.
AudienceShift – Content Rewriter	Communication	Python, Streamlit, Gemini API	Enter content → choose audience → adapt tone and vocabulary → compare outputs.
PortfolioPilot – Project Documentation Assistant	Career Development	Python, Streamlit, Gemini API	Enter project details → generate README and demo script → list limitations → review before publishing.
CaseBrief AI – Customer Conversation Summarizer	Customer Service	Python, Streamlit, Gemini API, Pydantic	Enter support conversation → summarize issue → extract unresolved items → prepare handover notes.
AgendaGen – Meeting Agenda Builder	Productivity	Python, Streamlit, Gemini API	Enter meeting goal and duration → generate agenda → allocate time → define expected outcomes.
PrivacyCompass – Privacy Checklist Assistant	Responsible AI	Python, Streamlit, Gemini API, checklist	Describe application and data → compare with checklist → identify risks and review questions.
TestCaseForge – AI Test-Case Generator	Software Testing	Python, Streamlit, Gemini API, Pydantic	Enter feature requirements → generate positive, negative and boundary test cases → export checklist.
MemoryChat – Chatbot with Session Memory	Conversational AI	Python, Streamlit, Gemini API, session state	Start conversation → preserve recent messages → answer follow-ups → provide reset option.
MultiModal Mentor – Study Material Explainer	Education / Multimodal AI	Python, Streamlit, Gemini multimodal API	Upload an image or document page → ask questions → generate explanation → verify against source.
KnowBase AI – Knowledge Base Assistant	Knowledge Management	Python, Streamlit, text/CSV files, Gemini API	Load knowledge base → search relevant entries → summarize results → show supporting entries.

ProposalPilot – Project Proposal Generator	Education / Project Management	Python, Streamlit, Gemini API, Pydantic	Enter problem statement → generate objectives and scope → list tools and workflow → review and refine proposal.
